OUR TRIED AND TRUE

JM TPO FB System.

VERY SEVERE HAIL STRONG

To withstand the harshest conditions over the long haul.

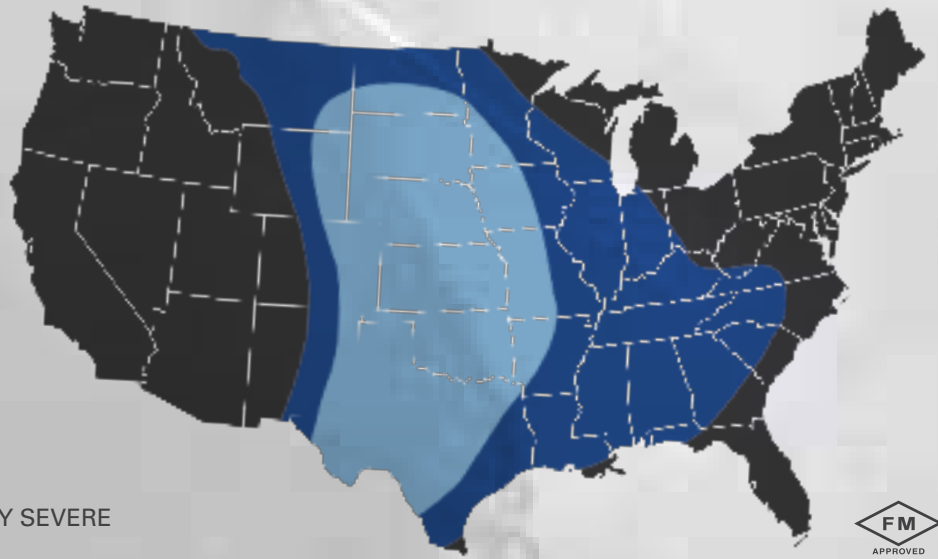

WE ACHIEVED THE INDUSTRY'S TOUGHEST HAIL RATING. PERIOD.

A building is an investment and deserves to be well-protected. With our Very Severe Hail (VSH) rating, save money and rest assured knowing the roof has been successfully tested to meet the FM's Very Severe Hail Rating, which includes hail exceeding 2" and falling at speeds up to 72 mph.

BE PREPARED FOR THE WORST HAIL STRIKES.

● MODERATE ● SEVERE ● VERY SEVERE

MODERATE HAIL APPROVAL
UPTO 1" (QUARTER SIZE)

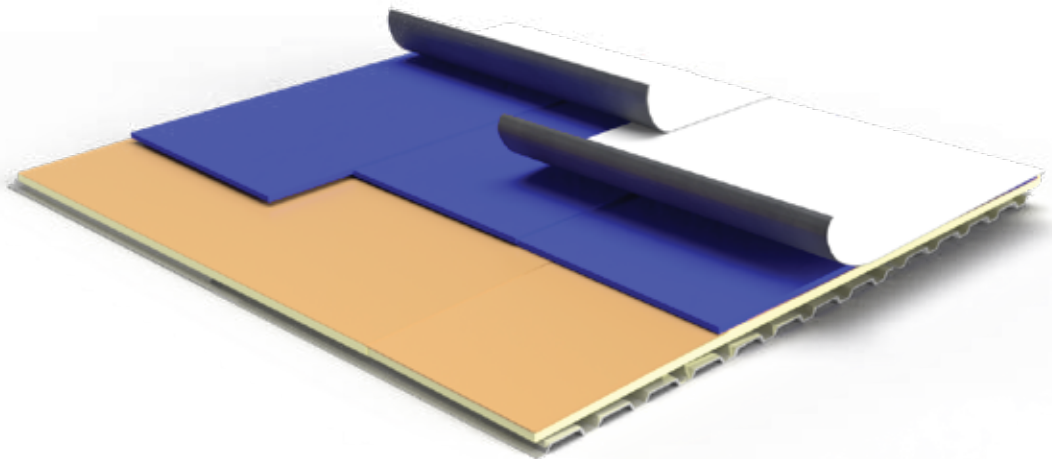

SEVERE HAIL APPROVAL
UPTO 1 3/4" (GOLF BALL SIZE)

VERY SEVERE HAIL APPROVAL
GREATER THAN 2" (EIGHT BALL SIZE)

THAT'S RIGHT... A GLAS MAT BOARD DESIGNED TO STAND UP TO VSH.

Johns Manville now carries economically competitive VSH systems that use our popular and trusted TPO membrane paired with DEXcell FA VSH board that that can be adhered or mechanically fastened

THE BEST PROTECTION IS A BETTER SYSTEM

At Johns Manville, our reputation means everything. We stand behind every product we put out in the market. So gain peace of mind knowing our DEXcell VSH Board is the best option to help protect the roof against Very Severe Hail.
