Johns Manville Announces EPDM 10" Peel & Stick RPS

The JM EPDM portfolio now offers JM EPDM Peel & Stick 10" Reinforced Perimeter Strip (RPS) as part of the JM EPDM accessory product line. The JM EPDM Peel & Stick 10" RPS eliminates the need for half sheets in some mechanically attached EPDM systems that require additional fastening in the perimeter and corners. This product is approved by FM Global®.

When using the 10" RPS in conjunction with the 6" Reinforced Termination Strip (RTS) it provides a comprehensive JM EPDM peel & stick perimeter reinforcement System. Also, combine 10" RPS with the new JM EPDM R FIT membrane for improved quality and production.

Product Overview:

SKU	Product	Size	Color
70005550	JM EPDM 10" RPS	10' x 100'	Black

Stocking Locations:

Milan, OH

Hazel Township, PA

Rockdale, IL
