SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Trade name: Range-Glas® EQ, Spin-Glas® WH EQ

Manufacturer or supplier's details
Company: Johns Manville
Address: P.O. Box 5108
Denver, CO USA 80127
Telephone: +1 303-978-2000 8:00AM-5:00PM M-F
Emergency telephone number: 1-800-424-9300 (Chemtrec, in English)

Recommended use of the chemical and restrictions on use
Recommended use: Range-Glas® EQ and Spin-Glas® WH EQ are designed to provide excellent thermal performance in all types of residential and commercial oven and water heater applications.

Prepared by: productsafety@jm.com

SECTION 2. HAZARDS IDENTIFICATION

GHS Classification
Not a hazardous substance or mixture.

GHS Label element
Not a hazardous substance or mixture.

Other hazards
Temporary mechanical abrasion (itching) of skin, eyes and respiratory tract may occur upon exposure to fibers or dust during handling of this product and cannot occur unless there is direct contact.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical nature
Glass Fiber Product

Hazardous components
Non-hazardous according to 29 CFR 1910.1200, when used as intended.

Relevant ingredients

SECTION 4. FIRST AID MEASURES

General advice: Get medical attention if symptoms occur.

If inhaled:
Move to fresh air.
If symptoms persist, call a physician.
SAFETY DATA SHEET
OEM Insulation

In case of skin contact: Take off all contaminated clothing immediately. If on skin, rinse well with water. Get medical attention if irritation develops and persists.

In case of eye contact: In case of eye contact, remove contact lens and rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If eye irritation persists, consult a specialist.

If swallowed: If symptoms persist, call a physician. Rinse mouth with water to remove dust or fibers and drink plenty of water to help reduce irritation.

Most important symptoms and effects, both acute and delayed: None known.

SECTION 5. FIREFIGHTING MEASURES

Suitable extinguishing media: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Special protective equipment for firefighters: Wear self-contained breathing apparatus for firefighting if necessary.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures: Avoid dust formation.

Methods and materials for containment and cleaning up: Take up mechanically. Pick up and arrange disposal without creating dust.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion: Provide appropriate exhaust ventilation at places where dust is formed.

Advice on safe handling: For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area.

Conditions for safe storage: Keep in a dry, cool place.

Materials to avoid: No materials to be especially mentioned.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters
Components | CAS-No. | Value type (Form of exposure) | Control parameters / Permissible concentration | Basis
---|---|---|---|---
Glass fibers shown to be biosoluble | Not Assigned | 1 fibre/cm³ | ACGIH
Nuisance dust | Not Assigned | TWA (Total particulate) | 15 mg/m³ | OSHA
 | | TWA (Respirable fraction) | 5 mg/m³ | OSHA

As a member of the North American Insulation Manufacturers Association (NAIMA), JM subscribes to the NAIMA Product Stewardship Program (NPSP). Under the NPSP, JM recommends that exposures be limited to the voluntary concentration of 1 f/cc TWA. The NPSP also includes work practice and respiratory protection recommendations. For more information, see NAIMA’s Health and Safety Reference Library (website: http://insulationinstitute.org/tools-resources/resource-library/health-safety/) to find the Product Stewardship Program Pocket Folder (N052) and other Fact Sheets.

**Personal protective equipment**

Respiratory protection: No personal respiratory protective equipment normally required. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

Hand protection

Remarks: For prolonged or repeated contact use protective gloves.

Eye protection: Safety glasses

Skin and body protection: Long sleeved clothing

Hygiene measures: Handle in accordance with good industrial hygiene and safety practice.

---

**SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES**

Appearance: solid

Colour: brown

Odour: slight

Odour Threshold: No data available

pH: Not applicable

Melting point/range: Not applicable

Flash point: Not applicable

Evaporation rate: Not applicable
Flammability (solid, gas): No data available
Upper explosion limit: Not applicable
Lower explosion limit: Not applicable
Vapour pressure: Not applicable
Relative vapour density: Not applicable
Relative density: No data available
Density: Not applicable
Solubility(ies)
  Water solubility: Not applicable
Solubility in other solvents: No data available
Partition coefficient: n-octanol/water: No data available
Auto-ignition temperature: No data available
Thermal decomposition: Not applicable
Viscosity
  Viscosity, dynamic: Not applicable
  Viscosity, kinematic: Not applicable

SECTION 10. STABILITY AND REACTIVITY

Reactivity: No decomposition if stored and applied as directed.
Chemical stability: No decomposition if stored and applied as directed.
Possibility of hazardous reactions: Stable under recommended storage conditions. No hazards to be specially mentioned.
Conditions to avoid: No data available
Hazardous decomposition products: Range-Glas® EQ and Spin-Glas® WH EQ are designed to be used in oven and water heater appliances that may reach temperatures up to 1000°F (538°C). During the first exposure of the insulation to elevated temperature, such as the first self-clean cycle of an oven, emissions of the following decomposition compounds may be detected in ppm (µg/g of insulation):
  formaldehyde  10-100
  acrolein      10-100
  hydrogen cyanide  10-50
  acetonitrile   1-10
  nonanal       1-10
Note: Actual air concentrations of these potential decomposition products are dependent on service temperature, quantity of insulation, room size and the ventilation rate. Due to these variables and additional materials used in manufacturing, equipment manufacturers should conduct appropriately scaled tests to evaluate potential risk.

SECTION 11. TOXICOLOGICAL INFORMATION

**IARC**
Group 3: Not classifiable as to its carcinogenicity to humans

Glass fibers shown to be biosoluble

**OSHA**
No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

**NTP**
No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Further information

**Product:**
Remarks: Temporary mechanical abrasion (itching) of skin, eyes and respiratory tract may occur upon exposure to fibers or dust during handling of this product and cannot occur unless there is direct contact.

SECTION 12. ECOLOGICAL INFORMATION

**Ecotoxicity**
No data available

**Persistence and degradability**
No data available

**Bioaccumulative potential**
No data available

**Mobility in soil**
No data available

**Other adverse effects**

**Product:**
Additional ecological information: Due to the properties of the product, a hazard to the environment may not be expected.
SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods
Disposal of residual product: In accordance with local and national regulations.

SECTION 14. TRANSPORT INFORMATION

International transport regulations
These products are not classified as dangerous goods according to international transport regulations.

SECTION 15. REGULATORY INFORMATION

TSCA list

EPCRA - Emergency Planning and Community Right-to-Know Act

CERCLA Reportable Quantity
This material does not contain any components with a CERCLA RQ.

SARA 304 Extremely Hazardous Substances Reportable Quantity
This material does not contain any components with a section 304 EHS RQ.
This product does not contain any hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act Section 12 (40 CFR 61).
This product does not contain any chemicals listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F).

California Prop 65: This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

The components of this product are reported in the following inventories:
TSCA: On TSCA Inventory
DSL: All components of this product are on the Canadian DSL.

SECTION 16. OTHER INFORMATION

Further information
Revision Date: 03/01/2016

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
