CRAWLSPACES
What you need to get started on your insulation project.

TOOLS NEEDED

• Gloves
• Utility knife
• Paper ruler or tape measure
• 2x4 piece of wood
• Protective eyewear
• Long-sleeved shirt
• Cardboard sheet to cut insulation on

• Wire fasteners
• Plastic sheeting
• Furring strips
• Hammer and nails
• Kneepads
• Caulk

MEET RECOMMENDED R-VALUES

R stands for resistance to heat flow. The higher the R-Value, the greater the insulation power. As R-Value increases, so does energy efficiency and home comfort. The colder or warmer the climate, the higher R-Value needed to maintain energy efficiency and comfort.
