Johns Manville Expands EPDM Offering

The JM EPDM portfolio now offers mechanically fastened JM EPDM R FIT (Factory Inseam Tape) membrane. This product was developed for superior quality assurance and labor savings compared to field fabricated seams. The JM EPDM R FIT (MF) product is designed with an easy-release zip strip for application with Johns Manville 1" Polymer Batten Strip. These products are approved by FM Global® and Underwriter Laboratories Inc. (UL®).

Product Overview:

SKU	Product	Mil	Size	Color
90025178	JM EPDM R FIT (MF)	60	10' x 100'	Black

Stocking Location:

Milan, OH

Installation and Specification:

Installation for these membranes will follow the application and specification guidelines of *JM EPDM Membrane Application Guide*. When installed in accordance with JM installation guidelines, these systems are eligible to receive a NDL JM Peak Advantage® Guarantee.

For additional information on this new offering visit JM.com or contact your local JM sales representative.
