Johns Manville Expands TPO Offering

The JM TPO portfolio now offers field and flashing membrane with self-adhering technology. Each product has a factory applied film eliminating the use of adhesives and the challenges of cold weather installation.

Product Overview:

SKU	Product	Mil	Size	Color	Rolls per Pallet
90025037	JM TPO SA	60	120" x 100'	White	7
90025229	JM TPO SA - Flashing Membrane	60	60" x 100'	White	7

Installation and Specification:

Installation for these membranes will follow the application and specification guidelines of *JM Thermoplastic Polyolefin Self-Adhered Membrane*. When installed in accordance with JM installation guidelines, these systems are eligible to receive a NDL JM Peak Advantage® Guarantee.

For additional information on minimum requirements, product availability and lead-times, contact your local JM sales representative or customer service advocate.
