## Product Discontinuation – Presto Lock™ Fascia & Presto Stop™ Gravel Stop

Effective immediately, Johns Manville is discontinuing the production Presto Lock Fascia and Presto Stop Gravel Stop products.

Johns Manville will continue to offer a full line of edge metal products for both Single Ply and Bituminous systems. These products include, but are not limited to the following:

- Presto-Tite Fascia for Single Ply and Bituminous systems
- Presto-Tite Edge One Fascia
- Presto-Weld Drip Edge
- Presto Lock Coping

These high performance products carry FM and ANSI/SPRI ES-1 approvals that offer compliance with International Building Code. They have been designed to offer the contractor a high-quality, cost effective, and easy-to-install product, which may be included in the Johns Manville Peak Advantage® roof system guarantee. Contact your district Technical Specialist for guarantee requirements.

Please contact your local sales or technical representative or call the Lewiston Technical Service Team at 1-800-445-1500 for more information.
