## **JM Expands EPDM R FIT (MF) Offering to Include One-Sided Pre-Taped**

Johns Manville launched EPDM R FIT (Factory Inseam Tape) with two-sided pre-taped product in November 2017 with their patented tape-to-tape solution. This product has seen significant growth over the past year. Due to this success JM has decided to expand their offering to include a one-sided pre-taped solution available April 1<sup>st</sup>, 2019. This product will be available in thickness options of 045 mil, 060 mil, and 075 mil.

JM will continue to produce their patented two-sided tape solution. A complete list of stocked and made-to-order products will be distributed in your April 1<sup>st</sup>, 2019 price pages.

The new one-sided pre-taped product will be available for shipment on April 1<sup>st</sup>, 2019. Please contact your sales rep or account manager with any questions.

Thank you for your continued support.

John Quante  
EPDM Product Manager
