JM Extends 80mil TPO to 100 feet

Johns Manville is increasing the length of our most popular 80mil membrane rolls from 75' to 100'. This length change goes into effect September 15th and affects the below listed white membrane SKUs only. All other widths and color options will remain at 75' roll lengths.

The 100' length rolls will require an altered shipment configuration of 4 rolls/pallet to meet shipping weight requirements.
