Johns Manville Roofing Systems Introduces New Distribution Center in Grand Prairie, TX

In an effort to increase our service levels and reduce lead times to our customers, the Johns Manville Roofing Systems Division will be opening a new distribution center in Grand Prairie, TX. The new distribution center will be staffed with JM personnel.

The current facility at 2820 N. Great SW Parkway will be phased out for storage of roofing materials, and the new facility at 3000 Roy Orr Blvd Suite 100 will be open for shipments on April 15, 2016. In addition to polyisocyanurate and cover board products, the new distribution center will expand its offerings to include PVC and TPO membranes, accessories and fasteners.

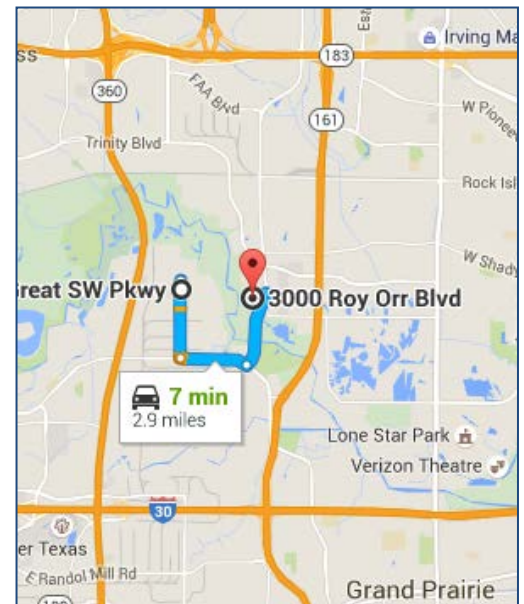

During the transition please review your order confirmation for the correct pickup location. Shipments out of the current facility, 2820 N. Great SW Parkway will conclude effective May 1, 2016.

Benefits:

- ✓ Ability to mix truckloads
- ✓ Shorter leads times due to location and haul time
- ✓ Expanded product offering
 - PVC & TPO Membranes
 - Accessories & Fasteners
 - Adhesives
- ✓ Customer pick-up available

Please contact your customer service advocate for a full listing of products available.
