Johns Manville Expands HAZMAT and Accessory Stocking Position in Rockdale, Illinois

In June 2015, Johns Manville began stocking select single ply products in our Rockdale, Illinois facility. We are excited to announce that we have expanded our stocking position and have added more accessories including HAZMAT materials. Full system orders are available for shipment and/or customer pickup. Direct-to-jobsite deliveries are also available from the Rockdale, Illinois facility.

Benefits to our customers:

- Mixed truckloads to include:
 - APP
 - BUR
 - SBS
 - EPDM
 - PVC
 - TPO
 - Single ply accessories including HAZMAT
 - Fesco® Perlite products
- Customer pick-up available
- Shorter lead times due to location and haul time

Guidelines to consider:

- Customers interested in picking up at the plant directly, are required to take a minimum of 18K lbs
- A “full” mixed truckload is defined as a minimum of 40K lbs. and/or 3K cube
- Remember for loads of HAZMAT over 1000 lbs. DOT requires a HAZMAT certified driver

Single ply price pages now reflect products available through Rockdale. Please contact your Customer Service Advocate for a full listing of products available at Rockdale or with any questions.
