Transportation Update

Historically, fuel has been the primary driver of transportation costs. Most recently, however, limited carrier capacity and increased demand have driven significant cost increases. To address escalating transportation costs and simplify the fee structure, Johns Manville is implementing a new transportation policy, effective July 15, 2018.

Transportation Fee Policy – effective July 15, 2018	
Transportation Fee	
Flat Bed Fee	\$350
Van Fee	\$325

Johns Manville has eliminated the incremental fuel surcharge and hazmat fee, developing a flat fee structure for shipments.

We appreciate your support and thank you for your business.

Sincerely,

Emily Gehrmann

Director, Commercial Operations
