Precautions

Johns Manville One-Part Pourable Sealer should be shipped and stored in a cool dry area. Keep all bags tightly sealed while in storage. It may cause eye and skin irritation, and may cause an allergic skin reaction and/or serious eye damage. Avoid contact with skin and eyes. Use impervious clothing, rubber gloves and eye protection to avoid prolonged or repeated contact with skin and eyes. Read the SDS, and container label and follow all safety instructions.

Installation/Application

- Apply when ambient temperature is above 40°F (5°C) and rain is not in the anticipated for at least 4 hours. Do Not Thin.
- Refer to the online application instructions guide and the product label for proper utilization of this sealant.

Packaging and Coverage

- Coverage, open and dry time rates can vary dramatically depending on the particular substrate and environmental conditions. Coverage rates stated herein are approximate only.

Storage

- Shelf Life: 12 months from manufacture date at 70°F and 50% relative humidity.
- Storage Conditions: Clean, dry, indoor environment, out of direct sunlight, in an unopened container.
- Temperature Range: Handles best at room temperature. Product will not freeze. Elevated temperatures or humidity may reduce shelf life significantly.

Exposure Window

Squeeze excess air from pouch and replace cap to save unused sealant. Opened product should be used within 30 days.

Refer to the Safety Data Sheet and product label prior to using this product.

The Safety Data Sheet is available by calling (800) 922-5922 or on the Web at www.jm.com/roofing.
