LITE-DECK FASTENERS AND PLATES
Insulation Fasteners and Plates

Features and Components
Lite-Deck Fasteners are available in lengths from 2 1/8" to 12" (67 mm to 305 mm), come with a square drive and offer coarse thread to provide high pullout resistance.

Lite-Deck plates are 3" (76 mm) round, Galvalume®-coated plates for use with Lite-Deck Fasteners.

Use: Insulation
Fastener: Steel
Head: #3 Square Drive
Plate: 3" (76 mm) Galvalume-Coated Steel - Round
Color: Black (fasteners) Grey (plates)
Deck Type: Gypsum, and Cementitious Wood Fiber

* Galvalume is a registered trademark of BIEC International, Inc. and some of its licensed producers.

System Compatibility
This product may be used as a component in the following systems. Please reference product application for specific installation methods and information.

Codes and Approvals*

*Fastener approvals are based on system approvals

Installation/Application
The Lite-Deck Fastener can be installed into cementitious wood fiber decks without pre-drilling. A pilot hole is required for gypsum; hole size is determined by pullout results. The OMG Lite-Deck Fastener must penetrate the deck a minimum of 2-in. Drive the fastener until a slight depression is seen around the plate, or with rigid insulation boards, drive fastener until the plate begins to dimple.
