Features and Components
Polymer Batten Strips are 1” (2.54 cm) wide, approximately .050” (1.27 mm) thick, plastic strips, prepunched 6” (15.24 cm) on center.

Anchor Bars are 1” (2.54 cm) wide, prepunched and counter-sunk, Galvalume®-coated steel strips typically used for supplemental anchoring of membranes in perimeter and corner zones of the roof.

Use: Single Ply Membranes
Materials: Battens - Polymer
Anchor Bars - Galvalume-Coated Steel
Color: Battens - White
Anchor Bars - Grey

Deck Types: Steel, Wood and Structural Concrete

* Galvalume is a registered trademark of BIEC International, Inc. and some of its licensed producers.

Installation/Application
Polymer Batten Bar: dispense from the carton. Install in straight lines by anchoring one end and extending bar to 25-ft. or so, then anchoring again. Set fastener head flush with batten bar. Do not overdrive.

Anchor Bar: Use appropriate fastener. Set fastener head flush with anchor bar.
