Features and Components

Use: For adhering JM EPDM membrane to approved roofing substrates. Limited availability from October 1st to April 15th. See this Bulletin for additional information.

Type: One-part, water-based membrane adhesive, one or two-sided application.

Substrates: Compatible with approved insulations and cover boards; wood or concrete substrates.

Color: Light purple when wet and adhering one-sided horizontal application, and dark purple when ready to adhere for two-sided vertical application.

System Compatibility

This product may be used as a component in the following systems. Please reference product application for specific installation methods and information.

Energy and the Environment

VOC <250 g/L Calculated
This product may be used in jurisdictions limiting VOC (volatile organic compounds) content of single ply roofing adhesive to no greater than 250 g/L.

Precautions

Adhesive contains ingredients which could be harmful if mishandled. Contact with skin and eyes should be avoided, and the recommended personal protective equipment should be worn.

Technical specifications as shown in this literature are intended to be used as general guidelines only. Please refer to the Safety Data Sheet and product label prior to using this product. The Safety Data Sheet is available by calling (800) 922-5922 or on the web at www.jm.com/roofing. The physical and chemical properties of the product listed herein represent typical, average values obtained in accordance with accepted test methods and are subject to normal manufacturing variations. They are supplied as a technical service and are subject to change without notice. Check with the regional sales representative nearest you for current information.
