

General Requirements

These general requirements govern the membrane-specific guarantee charges and requirements for each membrane and application method. Please refer to the individual requirements as noted on each guarantee charges and requirements page.

All guaranteed installations must follow the guidelines for the requested guarantee as outlined in the JM EPDM Application Guide.

Not all JM specifications are eligible for all JM Peak Advantage Guarantee terms or enhanced coverage. Please contact Guarantee Services for specific requirements.

All deviations from the guarantee requirements must be approved in writing.

All projects requiring a guarantee from JM must be applied for a minimum of 14 days in advance of job start.

JM will inspect only those roof installations that are to be guaranteed and only if a guarantee is registered. If a guarantee is not purchased, JM will not issue any letters that state that a roof has been applied according to JM specifications or recommendations. JM will not be responsible for any review or consultation not resulting in the issuance of a JM guarantee.

All JM single ply guarantees are No Dollar Limit (NDL). Guarantee prices are in U.S. dollars.
