

What is DynaSet 1K?

DynaSet 1K is a one-part, solvent-free, moisture-curing adhesive designed to install JM SBS membranes. The moisture-cure properties provide excellent green strength and a quick set-up during install, allowing the contractor to better set schedules and stay on track with lower risk of variable moisture readings in concrete decks. Apply in a ribbon application to allow for venting moisture below SBS vapor retarders in bituminous and single-ply systems. DynaSet 1K is available in a 5 gallon pail.

SBS Systems

1. SBS Base and Cap Sheet
2. ProtectoR® HD
3. ENRGY 3®
4. Polyester Reinforced SBS Vapor Retarder

Polyester Reinforced SBS Vapor Retarders
DynaBase® PR
DynaLastic® 180 S
DynaLastic® 250 S

5. DynaSet 1K

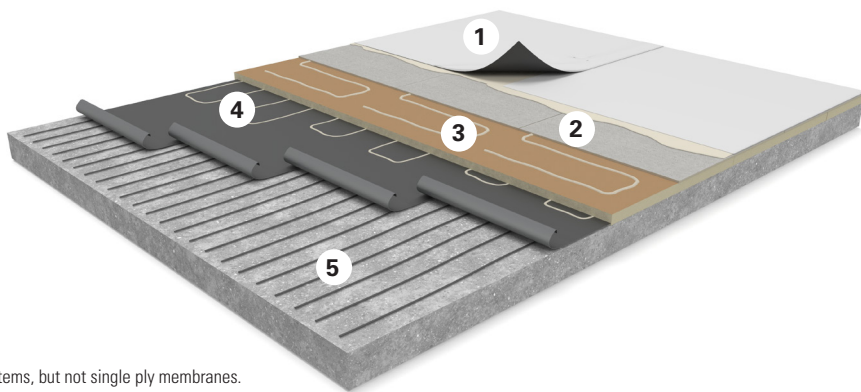

Single Ply Systems

1. Adhered TPO or PVC
2. ProtectoR® HD
3. ENRGY 3®
4. Polyester Reinforced SBS Vapor Retarder

Polyester Reinforced SBS Vapor Retarders
DynaBase® PR
DynaLastic® 180 S
DynaLastic® 250 S

5. DynaSet 1K

*May be used to adhere non-SA SBS vapor barrier membranes in single ply systems, but not single ply membranes.
