# RoofTech X-pert

**Johns Manville**

## ON-THE-ROOF GUIDANCE

When you're up on a roof, quick, reliable guidance matters. That's why the **JM RoofTech Xpert app** is built to be your **on-the-go technical companion**, a personal roofing specialist right in your pocket, ready whenever questions come up. Whether you're navigating installation challenges or simply need instant technical clarity, the app keeps trusted JM expertise at your fingertips. Download the updated JM RoofTech Xpert app today, available for both **iPhone** and **Android**.

## ADHESIVE ADVISOR

Kick your job-site decision-making into high gear with the Adhesive Advisor. It gives you a quick, at-a-glance estimate of flash time based on your site's temperature and humidity right when you need it. Plus, it delivers real-time climate insights that can further influence flash time, so you're always one step ahead.

1467 Stablecross Dr, Castle Pines, CO 80108, USA

**43°F** TEMPERATURE

FLASH TIME ESTIMATE **120 - 140** MINUTES

**41%** RELATIVE HUMIDITY
