

# ENHANCED PROTECTION WITH JM QUICKFOAM® AND TPO FLEECE BACK

## MORE ADVANTAGES WITH JM'S DYNAMIC DUO

### MORE FLEXIBILITY. MORE PROTECTION.

#### **ABSORBS IMPACTS**

*JM QuickFoam® remains flexible when cured, allowing it to act like a shock-absorber in your roof system.*

#### **PROTECTION AGAINST EXTREME HAIL**

*Expanded hail coverage is now available with systems using JM TPO Fleece Backed Roofing Membrane and JM QuickFoam®.*

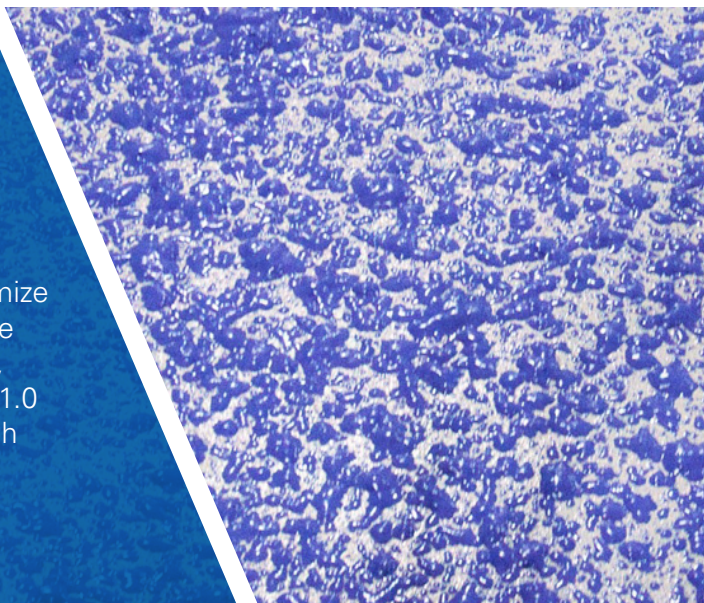

#### **PEAK ADVANTAGE® GUARANTEE**

*JM TPO 115 & 135 systems, with no cover board, are now eligible for 2" & 3" hail riders. Contact your technical specialist for more information.*

### JM QUICKFOAM® + SPATTER EQUALS SPEED + FLEXIBILITY

When JM QuickFoam® is applied in spatter you can maximize the benefits of speed and flexibility. Boards and membrane can be installed quickly with the same ballasting methods, and systems utilizing spatter in full coverage applications (1.0 gallon / square) are eligible for enhanced protection through JM's Peak Advantage® Guarantee program.

# THE BEST PROTECTION IS A BETTER SYSTEM

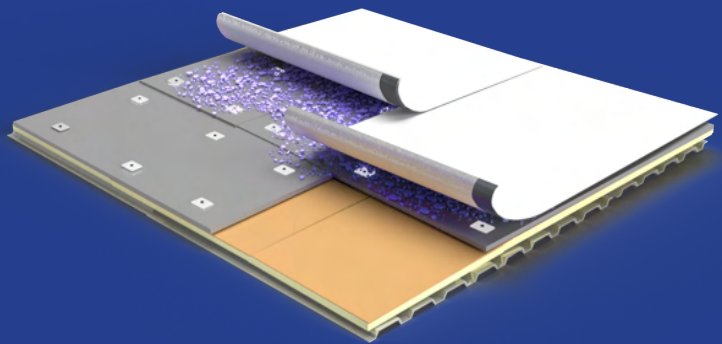

A building is an investment and deserves to be well-protected. Selecting a Very Severe Hail (VSH) rated systems allows you to rest assured knowing the roof has been successfully tested to resist hail exceeding 2" and delivering an impact energy of greater than 53 ft-lbs.

## DYNAMIC DUO: JM TPO FLEECE BACK + JM QUICKFOAM®

With over 300 approved VSH assemblies and counting, JM QuickFoam® systems withstand the harshest conditions over the long haul. Below are some popular VSH assemblies that allow for a variety of cover boards, attachment methods, and deck types.

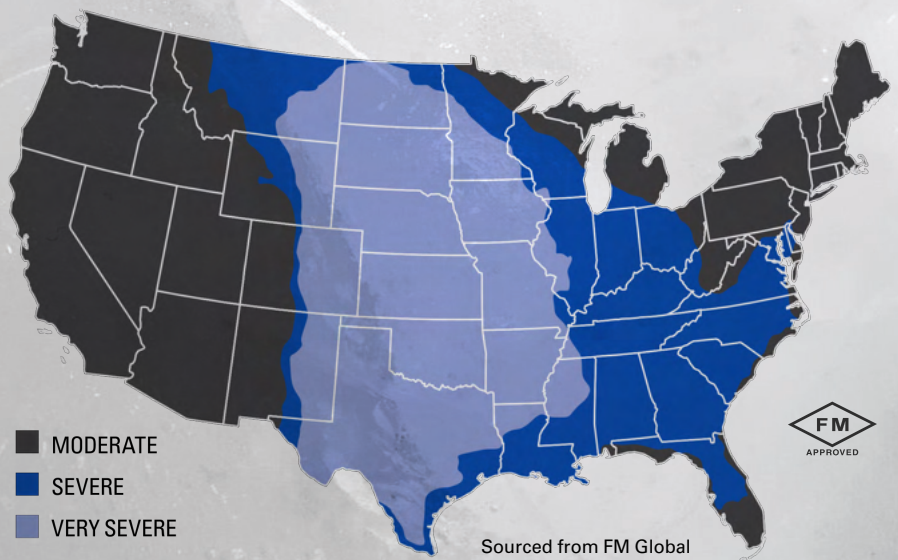

### JM QUICKFOAM® ADHERED VSH ASSEMBLIES

552477-0-0	TPO FB 115 or 135
560283-0-0	TPO FB 115 or 135
551534-0-0	TPO FB 115 or 135
550497-0-0	TPO FB 115 or 135
471230-0-0	TPO FB 115 or 135

## BE PREPARED FOR THE WORST HAIL STRIKES.

Through the majority of the United States, hailstorms move fast and can cause heavy damage to roofs. Although they may be unpredictable, you can count on JM TPO and JM QuickFoam® to offer a variety of systems that can resist dangerous storms.

**MODERATE HAIL APPROVAL**  
UPTO 1" (QUARTER SIZE)

**SEVERE HAIL APPROVAL**  
UPTO 1¾" (GOLF BALL SIZE)

**VERY SEVERE HAIL APPROVAL**  
GREATER THAN 2" (EIGHT BALL SIZE)
