

800 Series Spin-Glas® Ultra Poly-Top Rigid Fiberglass Board and Tape

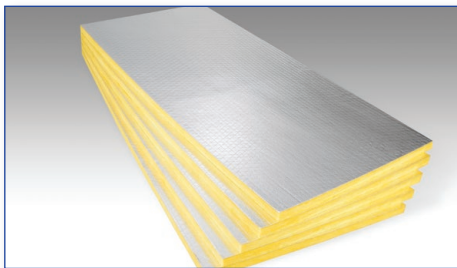

Re-introducing 800 Series Spin-Glas® Ultra, JM's fiberglass board with a poly-top facing, and now with exact matching tape. This board is cleanable and moisture-resistant with a polypropylene coating on the facing surface. It is ideal for indoor applications where aesthetics are a priority. 800 Series Spin-Glas Ultra was designed to be similar in appearance to Micro-Lok® HP Ultra so that the two insulations can be installed side-by-side.

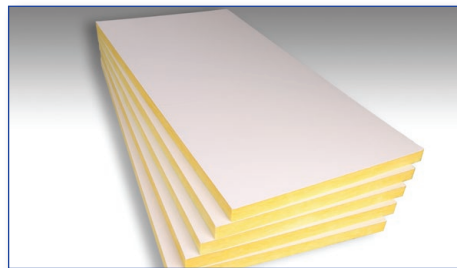

Johns Manville now offers an exact matching tape – Spin-Glas Ultra Polypropylene Scrim Reinforced Tape

- Cleanable
- Moisture-resistant
- Type II vapor retarder with a 0.02 perm rating per ASTM C1136
- Paper-free facing for improved wrinkle-resistance
- Meets requirements of a polymeric film type ASJ per the NIA Glossary
- Meets NFPA 90A and 90B with FHC 25/50 surface burning characteristics.
- Similar to Micro-Lok HP Ultra in appearance so the products can be used side-by-side
- Exact matching tape is available

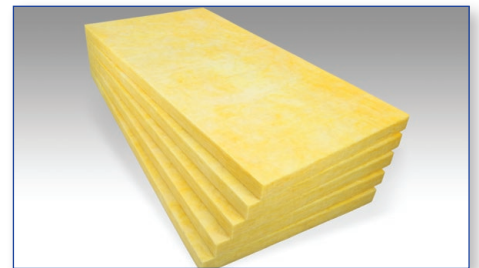

800 Series Spin-Glas comes in multiple other facings, including FSK, AP, and plain.

800 Series Spin-Glas FSK

800 Series Spin-Glas AP

800 Series Spin-Glas Plain
