

# TPO 60 MIL VERY SEVERE HAIL (VSH)

OVER DENSDECK® STORMX™ PRIME ROOF BOARD

INSTALL A VSH-RATED ROOF WITH JM TPO PRODUCTS

**MORE PROTECTION.  
MORE PRODUCTIVITY.**

**COMPETITIVELY PRICED**

*for your customers and for you.*

**EASIER TO INSTALL**

*Flexibility to use your preferred JM TPO adhesive lets you work your way.*

**OUR MOST POPULAR**

*JM 60 mil TPO.*

**VERY SEVERE HAIL STRONG**

*To withstand the harshest conditions over the long haul.*

**WE ACHIEVED THE INDUSTRY'S  
TOUGHEST HAIL RATING. PERIOD.**

A building is an investment and deserves to be well-protected. With our Very Severe Hail (VSH) rating, save money and rest assured knowing the roof has been successfully tested to meet the FM's Very Severe Hail Rating, which includes hail exceeding 2" and falling at speeds up to 72 mph.

# BE PREPARED FOR THE WORST HAIL STRIKES.

Through the majority of the United States, hailstorms are common, move fast and can cause heavy damage to roofs. Although they may be unpredictable, you can count on JM TPO to resist the most dangerous storms.

● MODERATE ● SEVERE ● VERY SEVERE

**MODERATE HAIL APPROVAL**  
UPTO 1" (QUARTER SIZE)

**SEVERE HAIL APPROVAL**  
UPTO 1¾" (GOLF BALL SIZE)

**VERY SEVERE HAIL APPROVAL**  
GREATER THAN 2" (EIGHT BALL SIZE)
